

Floyd received a Ubicomp Grand to work with Jennifer Sheridan and Sara Price from the [Designing Tangibles for Learning](#) project at the [London Knowledge Lab](#) on the topic of Exertion Interfaces.

The work involves a [Jogging over a Distance](#) evaluation between runners in the UK and Australia. Furthermore, the research investigations how technology can support social aspects when participating in asynchronous exertion activities, as it is believed that asynchronicity in this context can be used to contribute positively to kinesthetic literacy.
